Our client is a start-up company that is the spin-off of a highly successful practice group from a well-known and well-regarded global consulting firm. The company has strong private equity backing, principals with impressive credentials and a successful track record, and officially opens with 2 offices in June. The company seeks a hands-on, roll-up-your-sleeves General Counsel to take charge of the legal matters related to starting and growing the company. This is a fast-paced, dynamic environment. There are plans for an IPO within a five-year time frame.

Candidates should have 8+ years of experience that includes work with contracts, IPOs, M&A (there may be acquisitions), Intellectual Property (there may be software developed), and real estate (there will be additional offices opened). The General Counsel will initially be the only in-house counsel so he/she must be able and willing to work without support from junior staff members.

Compensation includes a competitive base salary and bonus as well as equity participation that will enable the successful candidate to accumulate wealth with the success of the company.

This is a terrific opportunity to get in on the ground floor of a start-up with tremendous potential for growth and value creation.
